Trade

BaBeL supports the various tradespeople in the BaBeL quarter, promotes their initiatives and contributes to their cooperation and visibility in the quarter and in the city.

Housing

BaBeL supports the expansion and promotion of affordable and non-profit housing construction. BaBeL creates a framework for cooperation and networking between property owners and emphasizes to them the importance of taking care of the diversity of housing types.

BaBeL

Perspective 2030

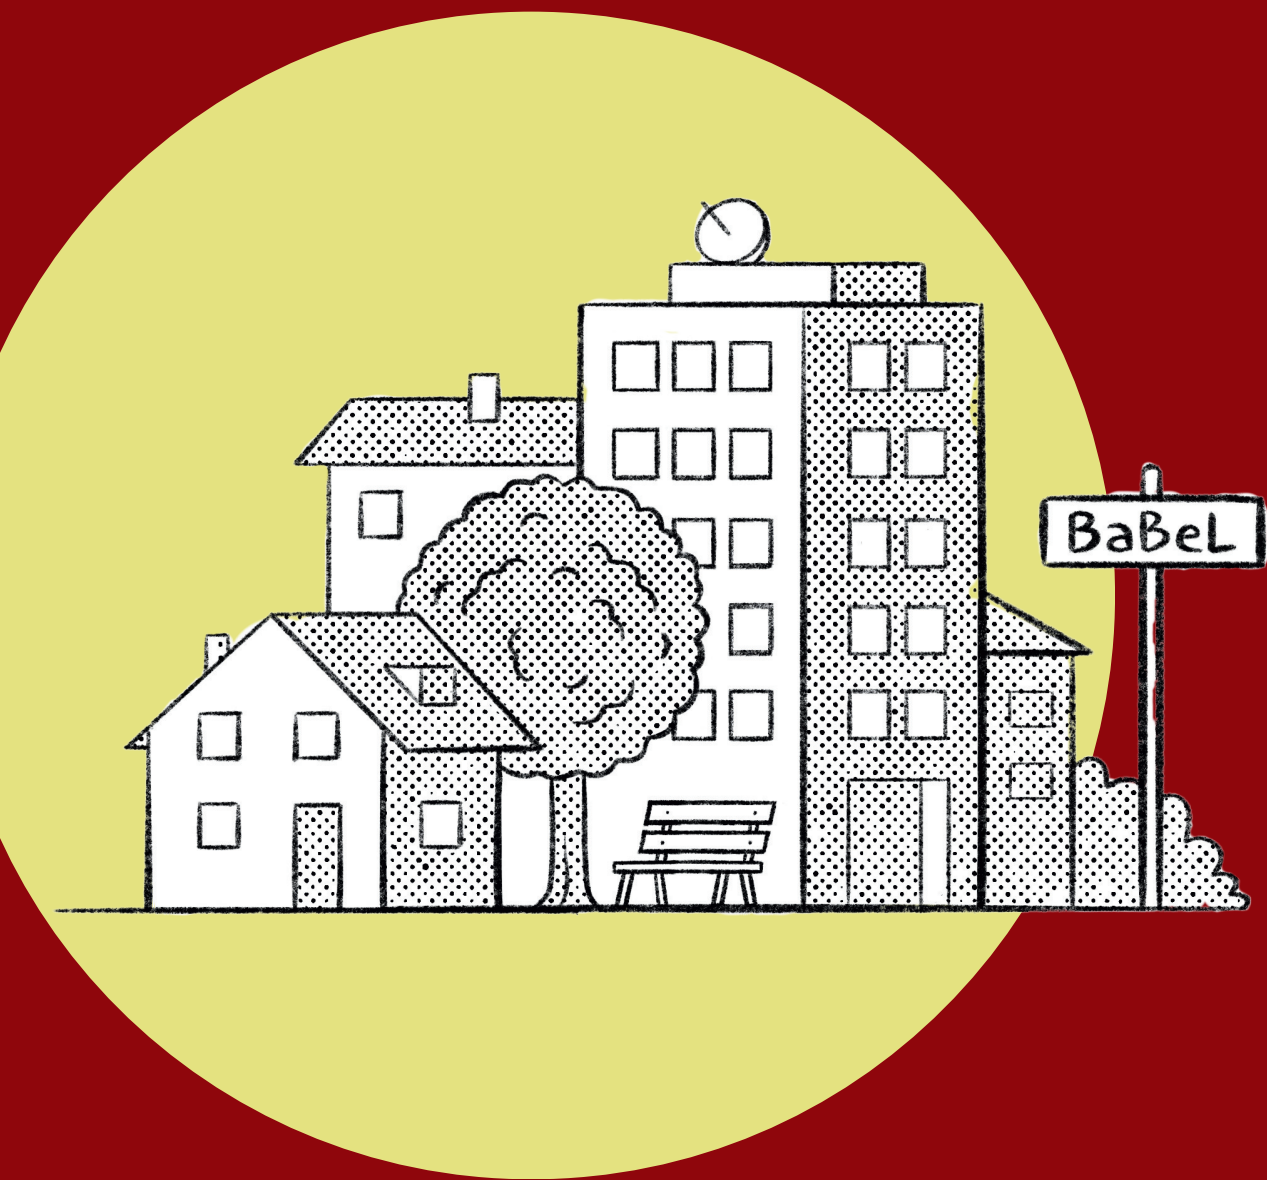

Sustainable development Basel- and Bernstrasse Lucerne

The aim of BaBeL is to upgrade the neighbourhood while retaining its current character. This is a process involving many small steps, both in the sociocultural and planning areas.

The 7 guiding principles form the basis for BaBeL's work. Wherever possible, the involvement of the neighbourhood population is demanded and encouraged. It remains an ongoing task to keep this urban development area with its special needs firmly on the political agenda.

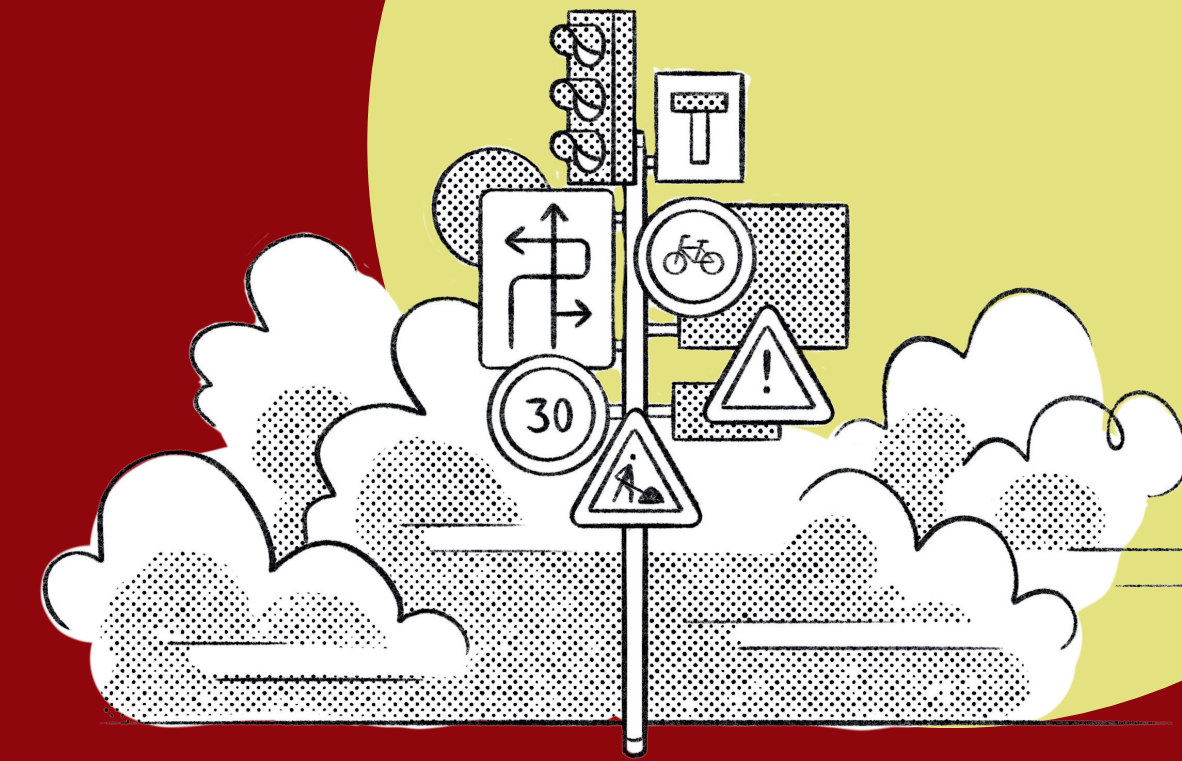

Quartier / BaBeL

BaBeL acts as a unifying force in the neighborhood and advocates for the concerns of the neighborhood both internally and externally.

Coexistence and Integration

BaBeL is committed to respectful coexistence for all residents and helps them identify with the neighborhood. BaBeL welcomes people in the neighborhood, promotes their exchange and supports their development opportunities. BaBeL strengthens efforts to ensure a safe and clean neighborhood and is committed to improving the quality of life.

Street Space and Traffic

BaBeL draws attention to traffic congestion in the neighborhood and identifies the effects; BaBeL also uses political channels for this purpose. BaBeL actively supports road construction projects in the neighborhood, informs the population and ensures their involvement. BaBeL is committed to a liveable neighborhood and a good coexistence of the various parties involved in traffic.

Public Spaces

BaBeL is committed to the creation of more open spaces in the BaBeL district that meet the needs of the residents. So-called unused spaces should be activated and better utilized. BaBeL ensures that the neighborhood population is actively involved in redesign projects and thus promotes the quality of life in the neighborhood.
